

SHEEFA PATHAN

DevOps & Cloud Engineer

Bengaluru, India | [+91-8793635445](tel:+91-8793635445) | sheefapathan1224@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

DevOps & Cloud Engineer with 5+ years of experience, including **2+ years in Android Development** and **3+ years specializing in Cloud Infrastructure**. Expert in automating and scaling environments across **Azure, AWS, and GCP**. Proven track record in orchestrating **CI/CD pipelines (GitHub Actions)**, managing production web stacks (**Nginx, Gunicorn, PostgreSQL**), and reducing manual overhead through **Python and Bash automation**. Skilled in securing cloud identities and endpoints via **Entra ID, Microsoft Intune**, and advanced **DLP policies**.

TECHNICAL SKILLS

- **Cloud Infrastructure (IaaS/PaaS):** Microsoft Azure (AVD, Virtual Machines), AWS (EC2, IAM), Google Cloud Platform (Compute Engine, IAM).
- **DevOps & Automation:** CI/CD Pipelines, GitHub Actions, Git, Workflow Automation.
- **Programming & Scripting:** Python, Java, C, Bash, YAML, JSON, HTML/XML.
- **Web Orchestration & Servers:** Nginx (Reverse Proxy), Gunicorn (WSGI), Web Hosting, Load Balancing.
- **Database Management:** PostgreSQL, Supabase setup and integration.
- **Identity & Endpoint Management:** Microsoft Entra ID (Azure AD), Microsoft Intune (MDM/MAM), Windows Autopilot, O365 Administration.
- **Cybersecurity & Compliance:** CrowdStrike (EDR), Safetica, Data Loss Prevention (DLP), Azure Monitoring, Audit Logging.

WORK EXPERIENCE

Cloud Engineer | Camptra Technologies – Hyderabad Nov 2022 – Feb 2026

- **Multi-Cloud Infrastructure Management:** Provisioned and managed scalable IaaS/PaaS environments across **Azure (AVD)**, **AWS (EC2)**, and **GCP (Compute Engine)** implemented granular access control using **IAM** and **Security Groups**.
- **DevOps & CI/CD Orchestration:** Engineered automated **CI/CD pipelines** using **GitHub Actions** and **Git** to streamline software delivery; utilized **Systemd** for process management and service persistence in Linux environments.
- **Web Orchestration & Hosting:** Designed and deployed secure web hosting stacks using **Nginx (Reverse Proxy)** and **Gunicorn (WSGI)**; configured **Load Balancing** and SSL termination to ensure high application availability.
- **Infrastructure Automation:** Developed advanced **Python and Bash** scripts to automate repetitive workflow tasks and system audits, reducing manual operational overhead by 40%.
- **Identity & Endpoint Governance:** Managed enterprise-level identity via **Microsoft Entra ID** and **O365 Administration**; automated zero-trust device onboarding and lifecycle management using **Microsoft Intune (MDM/MAM)** and **Windows Autopilot**.
- **Cybersecurity & Monitoring:** Enhanced organizational security posture by deploying **CrowdStrike (EDR)**, **Safetica**, and **DLP** policies; utilized **Azure Monitoring** and **Audit Logging** to identify and mitigate system vulnerabilities.

Android Developer | StartMySafari Innovations – Pune June 2022 – Oct 2022

- Developed core modules using **REST APIs** and managed Bluetooth hardware connectivity for ticketing systems.
- Integrated **Firestore Auth and Analytics** to enhance user engagement tracking and security.
- Leveraged **Firestore Realtime Database** for offline sync, achieving a 35% reduction in application latency.

Jr. Android Developer | IDelta – Pune March 2021 – May 2022

- **Workflow Automation:** Streamlined **backend workflows** and **ticket generation** by engineering custom **Python automation scripts** to eliminate manual bottlenecks.
- **High-Performance UI/UX:** Optimized application features using **Jetpack Compose** and **XML** to deliver fluid **user interfaces** and improve **user retention** standards.
- **App Lifecycle Management:** Managed the end-to-end process of building, testing, and publishing **3+ applications** to the **Google Play Store**.

DEVOPS & CLOUD PROJECTS

Project 1: Multi-Cloud Infrastructure (IaC) & Provisioning

- **Provisioning:** Managed and provisioned scalable **IaaS/PaaS** environments across **AWS (EC2)**, **Microsoft Azure (AVD)**, and **GCP (Compute Engine)** using **Cloud CLI**.
- **Networking & IAM:** Architected secure cloud networking by configuring **VPC/VNet** setups, **Security Groups**, and granular **IAM** access controls.
- **Scalability & Storage:** Implemented **Auto-scaling** logic for infrastructure resilience and integrated **AWS S3** and **Azure Blobs** for persistent data management.

Project 2: End-to-End CI/CD Pipeline Automation

- **GitHub Actions:** Engineered fully automated **CI/CD pipelines** using **GitHub Actions** to streamline the **SDLC** and eliminate manual bottlenecks.
- **Environment Consistency:** Utilized **Git** for version control and **Systemd** for process management to ensure identical behavior across staging and production.
- **Performance & Observability:** Integrated automated health monitoring and logging to proactively identify system bottlenecks and ensure high service availability post-deployment.

Project 3: Zero-Trust Identity & Endpoint Governance

- **Identity Governance:** Managed enterprise-level identities and secure access using **Microsoft Entra ID (Azure AD)** and **O365 Administration** under a **Zero-Trust** model.
- **Endpoint Management:** Leveraged **Microsoft Intune (MDM/MAM)** and **Windows Autopilot** for zero-touch provisioning and automated device lifecycle management.
- **Security Posture:** Enhanced organizational defense by deploying **CrowdStrike (EDR)** and **Safetica (DLP)**, utilizing **Azure Monitoring** for proactive threat mitigation.

EDUCATION

- **Master's in Computer Science** RBNB College, Shrirampur – Pune University | 2021
- **Bachelor's in Computer Science** RBNB College, Shrirampur – Pune University | 2019
